

**To: SRA Members**

**Re: RaceLive SR**

An in-boat status awareness system is a critical requirement for ensuring that we continue to race safely, particularly in our classic river race events.

The system is called RaceLive SR and its key points of difference are:

1. RaceLive SR utilises an Android app that runs on a mobile device.
2. Members will each own their RaceLive SR device and be responsible for it at all times and will be able to sell their unit to another member should they choose.
3. Spectators can freely access the RaceLive SR portal, from either mobile phones or desktop devices, to track teams as they compete in events.

SRA have been working hard with RaceLive to determine the best mobile device for our application and to customize the app and back office software systems to provide the best solution possible. The device that we settled on is the Ulefone<sup>2</sup> Amor X8 rugged smartphone and we will continue to develop the app and software to bring more features online in the near future.

### **Devices**

SRA has achieved preferred customer status with both Ulefone and Quadlock<sup>3</sup> and we have purchased 180+ Ulefone Armor X8 units, which will be supplied to you complete with a USB-to-USB-C charging cable (members need to use their own charger), Quadlock mount and a Quadlock-to-RAM<sup>4</sup> adapter (Note: the 1" RAM ball will mount directly to your old RaceSafe H2O mount). It will be supplied with the RaceLive SR app preloaded and with the Quadlock mount affixed. The cost for the complete device with mount and adapter will be \$270 inc GST. See Payment details on page 2.

Note: You cannot bring your own device. Devices must be purchased from SRA.

### **Hire for 1, 2, & 3 Event Members**

RaceLive SR devices will be made available for hire by 1, 2, & 3 event members ONLY. A \$50 hire fee is payable in advance to SRA (Payment Details on page 2) and a \$150 cash deposit is payable on pickup. The deposit will be refunded upon return of the device in good condition. Note: members will need to supply their own RAM base mount and double socket adapter.

### **Pickup**

Devices will be available for pickup from RaceLive SR staff at the Classic events.

### Mounts and Mounting Position

Members that have previously raced with the Racesafe devices in their boats will already have an existing B-size 1" RAM base mount and double socket arm; these are compatible with the new mounting adapter. Members that do not yet have a base mount or a double socket arm will need to purchase these independently.

Base Mount (member to supply)

Double Socket Arm (member to supply)

Adapter (supplied)

Note: RaceLive SR devices **MUST BE** mounted in a position where it is in the drivers forward line-of-sight, the bottom of the device **MUST** be above the plane of the steering column, and there **MUST** be clear sky above the device.

### Charging

Your RaceLive SR device can be charged at a maximum input of 10W (2A @ 5V) using the supplied charging cable. Note: a 5000mAh battery does take a few hours to charge. Whilst the 5000mAh battery is sufficient for a full day of racing you may wish to consider installing a USB port in your boat, or carrying a small battery bank, as **keeping the device charged is the sole responsibility of the device's owner**. Devices that are not on during competition may incur penalties.

SR staff will be on hand to help with any problems at each event.

### Payment

Please make the one-off payment for your RaceLive SR device to SRA as soon as possible and in advance of your attendance at an event requiring a RaceLive SR device. Payments can be made by EFT to the account below or by supplying your credit card details. If required, please request a tax invoice from [memberships@skiracing.com.au](mailto:memberships@skiracing.com.au).

Account name: Ski Racing Australia    BSB: 633-000    ACC: 154 832 851    Reference: *First & Last Name*

Please debit my Visa/Mastercard for the sum of \$270 for supply of a RaceLive SR device (or \$50 for hire<sup>5</sup>):

Name: \_\_\_\_\_ Boat Name: \_\_\_\_\_ + \_\_\_\_\_

First event the unit is required for: \_\_\_\_\_

Name on Card \_\_\_\_\_ Signature \_\_\_\_\_

Card Number \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_    Card Expiry \_\_\_\_ / \_\_\_\_    CVC \_\_\_\_

Please return this completed section to [memberships@skiracing.com.au](mailto:memberships@skiracing.com.au)
